EDUCATION

Arizona State University

Tempe, AZ

B.S. in Computer Science, Minor in Business, GPA: 3.98/4.00

May 2026

- **Relevant Coursework:** Object-Oriented Programming, Data Structures & Algorithms, Operating Systems, Database Management, Software Engineering, Machine Learning, Artificial Intelligence, Data Visualization, Human Computer Interaction

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, SQL, Java, C/C++, Swift, HTML/CSS

Frameworks & Libraries: React, Django, Next.js, FastAPI, Node.js, Express, MySQL, PostgreSQL, Firebase, Tailwind CSS, Supabase

Tools: Git, Docker, Render, Linux/Unix CLI, VS Code, Xcode, Postman, GitHub Actions, MCP, Vite, Microsoft Excel, Google Workspace

Technical Focus: Full-Stack Development, RESTful APIs, Distributed Systems, Cloud Platforms (AWS, GCP), CI/CD

GenAI / ML: AI-Assisted Development (Claude API, OpenAI API, GitHub Copilot, Cursor), Prompt Engineering, LangChain, AI Agents, NLP, Sentence Transformers (LaBSE, XLM-R), Embeddings, Semantic Search, NumPy, Pandas

EXPERIENCE

Software Engineer Intern

Jan 2026 – May 2026

Learning Engineering Institute, Arizona State University

Tempe, AZ

- Built a full-stack **Gen AI Literacy** web app for **ASU's 140,000+ students** in **React + TypeScript** across **6+ views** using **Vite** and **React Router**, increasing **user engagement** by **30%** in usability testing
- Engineered a **modular component architecture** with a custom **design system** following **SDLC** best practices, reducing redundant styling across **10+ components** by **~40%**
- Developed a **gamification engine** with XP, badges, and progress tracking; integrated **Supabase** auth with a **cross-profile sync system** using **RLS policies**, enabling seamless **cross-device continuity**

Software Engineer Intern

Aug 2025 – Dec 2025

Grey-Box

Tempe, AZ

- Built an **AI-powered** cross-language Wikipedia semantic gap analysis system in **Python, TypeScript, and FastAPI**, enabling automated comparison across **20+ languages** for underrepresented communities
- Implemented **NLP-based gap detection** using **LaBSE, XLM-RoBERTa** embeddings and **LLM reasoning**, surfacing missing content across **100+ Wikipedia articles** with measurable precision
- Owned the full **SDLC** for a modular **FastAPI** backend and **Electron + React** frontend, achieving **97% test coverage** and cutting manual effort by **~35%**

Full-Stack Developer Intern

June 2023 – July 2023

Onward Technologies Limited

Pune, India

- Developed and optimized **responsive web applications** using **HTML, CSS, and JavaScript**, reducing **page load times** by **50%** and improving **Core Web Vitals** to directly enhance **customer experience**
- Built **reusable, maintainable UI components** and **form validation logic** across **2 internal projects**, cutting dev time by **~20%** and ensuring code was **extendable** and well-documented

PROJECTS

FinMate Coach – AI Financial Wellness Platform | *Java, Spring Boot, Next.js 15, TypeScript, PostgreSQL*

May 2026

- Migrated a client-side finance app to a **full-stack system** with a **Java Spring Boot REST API, JPA/Hibernate**, and **PostgreSQL**, serving a **50/30/20 budgeting engine** and reducing manual budgeting effort by **100%**
- Integrated an **AI financial coach** via **Anthropic API** with budget context injected per request, delivering personalized money advice and **data-driven savings goal tracking**

FitTrack – Full-Stack Fitness Goal Tracking App | *React, Node.js, PostgreSQL*

Mar 2026

- Built a **Node.js REST API** with auth and **metrics-driven goal recommendations** based on user biometrics, automating personalized fitness planning
- **Containerized** the full stack with **Docker** and built a **GitHub Actions CI/CD pipeline** gating deploys on automated tests, shipping a **live production instance** with zero manual deployment steps

GitHired – CalHacks Winning AI Developer Hiring Platform | *React, ChromaDB, Elasticsearch*

Oct 2025

- Built and shipped a **scalable agentic AI platform** to production with **500+ active users**, generating developer **hireability scores** using **NLP embeddings** and **LLM reasoning**
- Architected **backend systems** for AI mentoring and job matching using **Composio MCP** and **Claude API**, integrating **Model Context Protocol** with **end-to-end production deployment**

LEADERSHIP & ACHIEVEMENTS

Vice President, Indian Students' Association

May 2025 – May 2026

- Drive partnerships, sponsorships, and technical programming for a **2,000+ member** organization, growing participation in events by **40%** through industry collaborations and cross-cultural initiatives

Secretary, Women in STEM

Jan 2025 – May 2026

- Organize **10+ annual workshops, panels, and networking events** connecting **500+ women in STEM** with industry professionals, mentors, and internship opportunities
