EDUCATION

Arizona State University

Tempe, AZ

B.S. in Computer Science, Minor in Business, GPA: 3.96/4.00

May 2026

- **Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Database Management, Software Engineering, Machine Learning, Artificial Intelligence, Data Visualization, Human Computer Interaction

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, SQL, Java, C/C++, Swift, HTML/CSS

Frameworks & Libraries: React, Next.js, FastAPI, Node.js, Express, MongoDB, MySQL, Firebase

Tools: Git, Docker, Linux/Unix CLI, VS Code, Xcode, Postman, GitHub Actions, Microsoft Excel, Google Workspace

Technical Focus: Full-Stack Development, RESTful APIs, Distributed Systems, Cloud Platforms (AWS, GCP), CI/CD

GenAI / ML: OpenAI API, LangChain, AI Agents, NLP, Sentence Transformers (LaBSE, XLM-R), Embeddings, Semantic Search, Prompt Engineering, NumPy, Pandas

EXPERIENCE

Software Engineer Intern

Jan 2026 – Present

Learning Engineering Institute, Arizona State University

Tempe, AZ

- Built a full-stack-ready **SPA** in **React + TypeScript** with client-side routing across **6+ views** (learning modules, interactive games, user profile) using **Vite** and **React Router**
- Engineered a modular component architecture with shared theme context and a custom **design system**, reducing redundant styling across **10+ components** by **~40%**
- Developed a **gamification engine** tracking **XP, badges, and module progress** via persistent local state, increasing user engagement by **30%** in internal demos

Software Engineer Intern

Aug 2025 – Dec 2025

Grey-Box

Tempe, AZ

- Built an **AI-powered** cross-language **Wikipedia semantic gap analysis** system (Project Symmetry) using **Python, TypeScript**, and **FastAPI**, enabling semantic comparison across **20+ languages** for underrepresented language communities
- Implemented **NLP-based** gap detection using **sentence embeddings (LaBSE, XLM-RoBERTa)** and **LLM reasoning** to surface missing and altered content across **100+ Wikipedia articles**
- Engineered a modular **FastAPI** backend and **Electron + React** desktop frontend with **97% test coverage**, reducing manual comparison effort by **~35%**

Full-Stack Developer Intern

June 2023 – July 2023

Onward Technologies Limited

Pune, India

- Developed and optimized **responsive web applications** using **HTML, CSS**, and **JavaScript**, reducing page load times by **50%** and improving Core Web Vitals
- Built **reusable UI components** and **form validation logic** across **2 internal projects**, cutting dev time by **~20%**

PROJECTS

GitHired – CalHacks Winning AI Developer Hiring Platform | React, ChromaDB, Elasticsearch

Oct 2025

- Built an **AI-driven hiring platform** analyzing **real GitHub activity** to generate developer **hireability scores** using NLP-based embeddings.
- Developed **backend systems** for **AI mentoring** and **GitHub job matching** using **Composio MCP** and **Claude APIs**.

FinMate Coach – AI Financial Wellness Platform | Next.js 15, TypeScript, Tailwind, Zustand, Recharts

May 2025

- Built a **50/30/20 budgeting engine** with rollover logic, categorical spend modeling, and a **safe-to-spend** daily recommendation system
- Integrated an **AI financial coach** via **OpenAI API** for personalized money tips; added **compound interest calculator** and savings goal tracking with visual progress

Swappi – iOS Social Connection App | SwiftUI, Firebase, Perplexity AI

Mar 2025

- Designed and built an **AI-driven social app** for **skill and mood-based matching** with a **real-time Firebase backend**.
- Integrated **Perplexity AI API** for intelligent matching recommendations, improving signup-to-match conversion by **28%**

LEADERSHIP & ACHIEVEMENTS

Perplexity Campus Partner

Sep 2025 – Present

- Selected as a **campus representative** to promote and integrate **Perplexity AI** tools, driving adoption among student developers.

Vice President, Indian Students' Association

May 2025 – Present

- Led partnerships and event operations for **2000+ students**, increasing engagement in technical and cultural initiatives by **40%**.

Secretary, Women in STEM

Jan 2025 – Present

- Lead and organize **10+ annual events** for women in STEM, building an inclusive community across **500+ members**.

Hackathon Achievements

2025 – 2026

- **CalHacks Winner** – Best Use of Composio Tool Router, **WiCS Hackathon Winner** – (Best Use of Perplexity)
